

## REMARKS

The office action of June 14, 2007 required an amendment to the title so that title would be more descriptive of the invention. An Amendment was filed on September 14, 2007 and presented the title exactly as set forth in the caption of this Rule 312 Amendment. However, the Notice of Allowance improperly spells the word "INTERFERENCE" in the title. This spelling mistake appears to be due to a clerical error by the United States Patent and Trademark Office. Please amend the title of the invention as requested to ensure that the patent to issue from this application includes the appropriate title.

This Amendment clearly does not raise issues that would require further consideration or searching by the Examiner and does not affect the scope of the invention as defined by the claims. Accordingly, entry of this Amendment is appropriate and is solicited.

Respectfully submitted,

Gerald E. Hespos, Esq.
